Our Mission

Establish a global presence as a leading designer and manufacturer of high quality handheld surgical instruments in the dental and medical surgical fields. Our goal will be achieved through the offering of excellent products and services; and by our commitment to exceed customer expectations.

About Us

BMT Medizintechnik GmbH (located in Tuttlingen, Germany) designs, manufactures and markets a complete product portfolio of over 10,000 surgical instruments to the dental and medical markets. For decades, our brand has gained recognition in the European marketplace as a high quality premier brand, and, in recent years, has made its mark into the North American marketplace where it continues to be recognized for its exceptional quality.

What makes us different? Outstanding quality!

BMT manufactures surgical instruments from martensitic stainless steels (AISI 1 421, 440, 440C2) which is the highest quality stainless steel available. Our brand is built on outstanding product quality, service and an unsurpassed warranty of 5 years against manufacturing defects!

Industry Participation

As a leading global provider of surgical instruments, BMT has major distributors located throughout Europe, the Americas, the Middle East and Asia. BMT maintains its leadership in innovation by working closely with its distributors and surgical practitioners to develop new products. BMT is also in the forefront of product education by offering and participating in seminars and other educational events on proper instrument selection, usage and care. BMT continues to establish itself as a premier surgical instrument company by attending and supporting leading conferences throughout the world.

Product and Quality Certifications

BMT products are registered and comply with European Conformity (CE), U.S. Food and Drug Administration (FDA), Health Canada, and Korean Food and Drug Administration (KFDA).

4 x 1.8 in

Arkansas # 6A
Fine texture

DB-3 DB-6A

Wedge Stones

They combine flat surfaces with rounded edges to manually sharpen internal parts (straight and curved edges) of curettes and scalers.

Arkansas: for routine sharpening and finishing.

India: for sharpening of excessively dull instruments or those requiring recontouring.

DB-4

Rectangular Stone

A flat and rectangular stone used to sharpen all cutting parts of surgical instruments.

Necessary in routine sharpening and finishing of edge and toe of an instrument.

Arkansas: a natural stone extracted from the Arkansas mountains.

India: a synthetic stone quarried from the finest Ozark novaculite-silicon quartz-deposits.

DB-299

Conical Stone

A cone-shaped and cylindrical stone used to manually sharpen internal parts of curettes, scalers, gouges, rongeurs, etc. (in areas that otherwise cannot be reached).

DB-96

Flat Stone

A flat and rectangular stone used to sharpen all cutting parts of scissors, osteotomes, curettes, etc. (whenever necessary).

DB-0L

Lubricating and Sharpening Oil

A non-coloured oil, which is an indispensable complement for lubricating and manual sharpening of surgical instruments. To activate the abrasive properties of Arkansas or India stones and to reduce the possibility of overheating the instruments during sharpening. It should be applied on all hinges or all other parts which are subject to movement or friction. Its use facilitates elimination of any residue present within the instrument hinges. Used to ensure perfect function and fluid movement of all surgical instruments. Must ALWAYS be used during all sharpening operations.

Oil
30 cc
1 fl oz

Ceramic
76 x 25 x 6 mm
3 x 1 x 1/4 in

DB-71

Ceramic Stone

Ceramic stones are valued for their durability and the very keen edge they give in the finer grits. Will never pit or groove. Used for routine sharpening procedures. Autoclave safe.

Ceramic: use only dry. (Do not use with oil, water or lubricants)

RINSE - CLEAN

CLEANLACT | Detergent Milk

Special milk for surgical instruments. Anticorrosive, bacteriostatic and lubricating action on all surgical instruments. Extends your instrument's lifetime. It guarantees perfect maintenance by eliminating eventual stains, halos and browning due to sterilization, disinfection and washing with tap water.

Must be applied periodically, diluted or concentrated. (see special instructions on packaging)

DB-50M DB-1L
500 cc 1000 cc
17 oz 34 oz

Brushes | Autoclavables

Special brushes to clean surgical instruments.

Used to remove eventual residue, organic or not, from all surgical instruments, in particular in angled, hinged and knurled parts, without damaging instrument surface.

Must be applied every time, for regular cleaning of all instrumentation and in the event that an instrument is exposed for an extended period to air before being immersed in the cleaning solution.

DB-11 DB-12
155 mm 175 mm
6 in 7 in

Special Rubbers for metal

50 x 40 x 20 mm / 2 x 1.6 x 0.8 in

An abrasive eraser specially designed for surgical instruments to remove stains, halos or persistent burnishing from all surgical instruments without damaging the instrument surface.

Necessary when routine cleaning does not remove all stains.

DB-08 DB-07
Coarse Fine

STERILIZATION

Stainless Steel Cassettes

 30 x 200 x (75^A)(150^B)(275^C)(300^D) mm
 Available only in North America

1.4 x 7 x (3^F)(5.7^F)(11.5^G) in
 35 x 185 x (75^F)(145^F)(290^G) mm

TESTING

Teflon Testing Stick

Ø 8 x 100 mm / Ø 0.3 x 3.5 in

A hard plastic stick used to test the blade of an instrument to determine the sharpness of an instrument.

Must be used ALWAYS. If the blade of the instrument runs smoothly over the plastic stick, then it is blunt. A sharp instrument will grab into the stick and removes small fragments of the plastic.

EN / Graphic images in our Catalogue are for references only and not binding. We reserve the right to modify esthetically and technically without prior notice. To reprint this catalogue - or any part of it - without our final approval, is prohibited.

DE / Die Abbildungen in unseren Katalogen sind nicht bindend für unseren Betrieb. Wir behalten uns das Recht auf Änderungen in Aussehen und Abmessungen vor, ohne vorherige Ankündigung. Der Nachdruck des Kataloges - auch auszugsweise - ist ohne unser ausdrückliches Einverständnis untersagt. Geschmacksmuster angemeldet.

FR / Les images graphiques dans les catalogues sont à titre de références. Nous réservons le droit de modifier de façon technique et/ou esthétique sans préavis. La production totale ou partielle de ce catalogue - sans notre accord - est interdite.

ES / Las imágenes en nuestro catálogo son sólo referenciales. Nos reservamos el derecho modificarlas técnica o estéticamente sin previo aviso. Prohibida la reproducción total o parcial del catálogo sin el consentimiento explícito de la empresa.

IT / L'immagine raffigurata sui nostri cataloghi non è vincolante per l'azienda, che si riserva il diritto di apportare modifiche estetiche o tecniche senza alcun preavviso. È vietata la riproduzione totale o parziale del presente catalogo senza il nostro consenso.
