Techniques Multi-Therapist Table

The Techniques Multi-Therapist Table is the most versatile table on the market today. It is designed for today's multidisciplinary or rehabilitation practice. This "hybrid" table is a **chiropractic, massage, physiotherapy, acupuncture and naturopath table** combined into one. The table functions as both, an examination or treatment table. With addition of the tilting back section it can also be used as an examination chair. This table is ideal for clinics where multi practitioners share a room and treatment table. The width and shape as well as the option for height adjustment make adjusting easy and effortless. The solid construction and extra firm foam add to patient comfort.
